The purpose of this agreement is to give you information about the use of any and all medication(s) (i.e., opioids, also called 'narcotics, painkillers', and other prescription medications, etc.) for chronic pain you will be taking for pain management and to assure that you and your physician comply with all state and federal regulations concerning the prescribing of controlled substances. You as a patient have the right to be informed about your condition and the recommended medical or diagnostic procedure or drug therapy to be used, so that you may make the informed decision whether or not to take the drug after knowing the risks and hazards involved. The success of treatment depends on mutual trust and honesty in the physician/patient relationship and full agreement and understanding of the risks and benefits of using opioids to treat pain. **Therefore, medication(s) will only be provided so long as I follow the rules specified in this Agreement.**

Discharge may be immediate for any criminal behavior:
PLEASE INITIAL ON EACH LINE
I understand that there is a risk of psychological and/or physical dependence and addiction associated with chronic use of controlled substances.
I am NOT pregnant. I will use appropriate contraception/birth control during my course of treatment. If I become pregnant, it is my responsibility to inform my physician immediately as certain drugs can be harmful to unborn children.
I understand that this Agreement is essential to the trust and confidence necessary in a provider/patient relationship and that my provider undertakes to treat me based on this Agreement.
I understand that if I break this Agreement, my provider will stop prescribing these pain control medicines.
I would also be amenable to seek psychiatric treatment, psychotherapy, and/or psychological treatmen if my provider deems necessary.
I will communicate fully with my provider about the character and intensity of my pain, the effect of the pain on my daily life, and how well the medicine is helping to relieve the pain. My progress will be periodically reviewed and, if the medication(s) are not improving my quality of life, the medication(s) may be discontinued . I will be required to follow up with my physician every month in order to have my medication refilled. If I do not keep my follow up appointments, my medication refill may be denied.
I will not use any illegal controlled substances, including marijuana, cocaine, etc., nor will I misuse of self-prescribe/medicate with legal controlled substances. Use of alcohol will be limited to times when I am not driving or operating machinery and will be infrequent.

I will not attempt to obtain any controlled medications, including opioid pain medications, controlled stimulants, or anti-anxiety medications from any other provider.
I will safeguard my pain medication from loss, theft, or unintentional use by others, including youth. Lost or stolen medications will not be replaced.
I authorize the provider and my pharmacy to cooperate fully with any city, state or federal law enforcement agency, including this state's Board of Pharmacy, in the investigation of any possible misuse, sale, or other diversion of my pain medication.
I agree that I will submit to urine and/or blood screens if requested by my provider to determine my compliance with my program of pain control medications.
I understand that my provider will be verifying that I am receiving controlled substances from only one prescriber and only one pharmacy by checking the Prescription Monitoring Program web site periodically throughout my treatment period.
I will disclose to my physician all medication(s) that I take at any time, prescribed by any physician.
I agree that I will use my medicine at a rate no greater that the prescribed rate and that use of my medicine at a greater rate will result in my being without medication for a period of time. I understand I may be asked to bring all my medicines into the office for a random pill count. Failure to comply will lead to dismissal from the practice.
There are side effects with opioid therapy, which may include, but not exclusively, skin rash, constipation, sexual dysfunction, sleeping abnormalities, sweating, edema, sedation, or the possibility of impaired cognitive (mental status) and/or motor ability. Overuse of opioids can cause decreased respiration (breathing).
I agree to follow these guidelines that have been fully explained to me.
I agree that refills of my prescriptions for pain medications will be made only at the time of an office visit or during regular office hours. No refills will be available during evenings or on weekends. Refill(s) will not be ordered before the scheduled refill date. However, early refill(s) are allowed when I am traveling and I make arrangements in advance of the planned departure date.
All medication(s) must be obtained at one pharmacy, when possible . I will inform my physician if I need to change pharmacies. I will use only one pharmacy and I will provide my pharmacist a copy of this agreement . I authorize my physician to release my medical records to my pharmacist as needed.
